

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	22 JUNE 2026
Project Name	Ticket Booking System
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Step 1: Team Gathering, Collaboration and Select the Problem Statement

Problem Statement

Develop a **Metro Ticket Booking System** in **ServiceNow** that enables passengers to book metro tickets online. The system should automatically calculate the fare based on passenger type and ticket count, generate a QR code for ticket verification, and securely store booking details in the database.

Step 2: Brainstorm, Idea Listing and Grouping

Idea No	Brainstorm Idea	Category
1	Manual Metro Ticket Booking	Existing System
2	Online Metro Booking Portal	Web Solution
3	Automatic Fare Calculation	Automation
4	QR Code Based Digital Ticket	Security
5	Store Ticket Details in ServiceNow Database	Database
6	Ticket Booking using Service Catalog	ServiceNow
7	Ticket Booking using Custom UI Page	UI Development
8	Future Payment Gateway Integration	Future Enhancement

Grouping of Ideas

Existing System

- Manual Ticket Counter
- Paper Ticket

Automation

- Automatic Fare Calculation
- Dynamic Ticket Price

ServiceNow Features

- Custom Table
- UI Page
- GlideAjax
- Script Include
- Client Script
- Jelly XML

Security

- QR Code Generation
- Unique Ticket ID
- Digital Verification

Future Scope

- Online Payment
- Mobile Notifications
- Email Confirmation
- QR Scanner Validation

Step 3: Idea Prioritization

Idea	Importance	Feasibility
QR Code Ticket Generation	High	High
Automatic Fare Calculation	High	High
Custom UI Page	High	High
Store Booking in ServiceNow Table	High	High
Service Catalog Integration	Medium	High
Payment Gateway	High	Medium
SMS Notification	Medium	Medium
AI-based Suggestions	Low	Low
